indeed.com/portfolio

Data Analyst experienced in SQL, Python (Pandas), PySpark, Power BI, and Databricks. Skilled in data transformation, KPI tracking, and analytical reporting. Proficient in Excel and reporting automation. Focused on turning data into actionable business insights.

Currently completing a Data Engineer continuing education program (Weiterbildung), expected completion Nov 2026, with a focus on data pipelines and engineering practices. Open to work in Germany.

WORK EXPERIENCE

Relocation to Germany & Professional Requalification

05/2022 – Present

Mönchengladbach, Germany

Relocated from Ukraine to Germany during the war in 2022. Used this period to requalify for the German job market:

- Currently completing Data Engineer continuing education (expected completion Nov 2026)
- Certifications in Power BI, Tableau, and Databricks
- Degree recognition confirmed equivalent to German standards (ZAB, Dec 2025)
- German language course B1 (Jan 2025) and A2 (Oct 2023)

Ongoing project-based analytics work alongside formal qualification-building for the German market.

Data Analyst

11/2020 – 05/2022

CarID — Cranbury, NJ, USA · Full-time, Remote

- Automated P&L and sales reporting pipelines, increasing transparency and enabling faster management decisions
- Automated SQL and Excel reports for Sales and HR, reducing manual effort from 2–4 days to a few hours
- Prepared data for pricing models in collaboration with data scientists to support margin-driven decisions
- Built data pipelines and transformations in Databricks using Python (PySpark) for scalable processing and reporting

Technologies: SQL, Python (Pandas), PySpark, Databricks, NetSuite, Jira, GitHub, Excel, Power Query

Data Worker (Technical Department Specialist)

08/2018 – 10/2020
